**C-9 Summit Planning**- At the June 8th IBCC meeting, CWCB and IBCC PEPO presented results from the C-9 Summit Roundtable Survey. Key highlights include that people were most interested in hearing from experts, panels, workshops and networking (in that order). The Survey also showed that a few topics like Colorado River, Drought Resilience, Climate Change, Funding and Water Conservation were of higher interest. Based on those results, other input CWCB has collected, and the amount of topics that can fit into a day-long event, CWCB staff shared a very rough draft of the forthcoming November 14, 2023 C-9 Summit. A pdf of the draft agenda is attached.
